## Newsletter n.5

INNO4SPORTS is an European project which objective is to share the experiences of different European regions with different levels of development and experience in sport.

The ultimate goal of Inno4Sports is to facilitate technological and innovation potentials for sports development in the regional economy.

This is achieved through incrementing the competitiveness of SMEs, institutions and the public sector, as well as by building an integrative economic activity to enhance growth and jobs whilst also addressing challenging societal issues.

## Inno4Sports: Sports Cluster Policy Learning Synthesis Report

The Sports Cluster Policy Learning Synthesis Report (SCPLSR) provides an holistic understanding of the performance, implementation and results of the Inno4Sports project in Phase One (Interregional Knowledge Exchange). The SCPLSR outlines the regional individual action plans whilst posing strong emphasis on the good practices and lessons learnt as well as the experience gained from the thematic exchange process.

## Inno4Sports: End of Phase One & Start Phase Two

In Phase One of the project (2018-2020), activities took place to develop a clear picture of the excellences of all five regions and to learn from each other. All regions worked together to transfer the experiences into their own regional action plans. In Phase Two (2021-2022) of the project partners will undertake activities to implement the action plans in their own region so to better embed innovation for sport & vitality in local policies.
